EXPERIENCE

WEB DEVELOPER AT EDSA

MARCH 2020 - FEBRUARY 2021

In this company, I focused on web development and maintenance using React.js and Material UI

FULL STACK DEVELOPER AT LATECH DIGITAL SERVICES

MARCH 2021 - OCTOBER 2024

In my role at this company, I focused on web development and maintenance using modern technologies like Next.js and Tailwind CSS to build efficient and scalable user interfaces. I also worked with Node.js for backend development, optimizing server-side logic and ensuring seamless communication between frontend and backend systems.

Additionally, I gained experience working with CMS platforms such as Strapi, which allowed me to implement flexible and customizable solutions for various web projects.
